OFFICIAL

Restriction Requirement

July 12, 2004

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In response to the Office communication dated June 16, 2004 for an application filed on March 10, 2004, requiring election between Class I, Claims 1-34 drawn to an extruded member and Class II, Claims 35-37 drawn to a wrought structural member. Applicant's elect with traverse Claims 1-34.

This application is a continuation of Serial No. 10/286,937, filed November 2, 2002, and was filed to clear up certain differences between the text and drawings of the parent with the thought to discontinue prosecution of the parent. The Examiner has issued an Office Action on the parent dated June 9, 2004 indicating certain claims allowable (3, 5-6 and 16). These 4 claims of the parent are believed similar to those of the subject application, and if also considered allowable in the subject application would be given prompt consideration by applicants due to the complexity of the subject matter. In view of all this, prompt action is requested on elected claims 1-34.

Respectfully submitted,

08840  
PATENT TRADEMARK OFFICE

Daniel P. Cillo, Esq.  
Attorney for Applicants
